**SATURDAY,  
MARCH 16, 2019**

Italian Community Center  
631 E. Chicago St.  
Milwaukee, WI

## Target Audience

Physicians, Nurses, Pharmacists, Pharmacy Technicians, Allied Health Professionals

## Conference Purpose

The options for diagnosing, treating and managing cancer are constantly evolving. The primary care provider is an essential partner in the diagnosis and management of cancer. This knowledge based conference is designed to present new developments in the treatment of patients with advanced lung cancer by experts in their respective fields. Physicians, nurses, and other allied health professionals will be presented with a review of the recent data on smoking cessation and tobacco control, lung cancer staging, use of molecular markers, treatment of advanced lung cancer, and the identification and management of treatment side effects.

## Educational Objectives

- Review current smoking interventions (counseling, pharmacotherapeutics, NCCN guidelines)
- Describe updates in TNM (AJCC) staging for advanced lung cancer.
- Discuss advancements in molecular testing and diagnosis in the therapeutic management of advanced lung cancer
- Describe and recognize adverse events and immune related side effects from treatment.
- Discuss diagnosis and treatment options for oligometastatic disease

## Program Planning Committee

Paul Ritch, MD - President  
Deanna Birling MSN AOCNP - Vice President  
Gerald Kallas, MD - Treasurer  
Mary Kissinger, BS, CTR - Secretary  
Charles Bomzer, MD  
Joseph Bovi, MD
